Hi Allison,

I completed comments 51-55 & 58. Will work on NWEA's (57) comments tomorrow. However, there is something wrong with 56 (see attached). Apparently it was scanned out of order. Can you resend and post the comment in the correct order?

Thanks!

Jayne

Hi Allison, thanks for the specific directions and codes. My additions are in the attached table for Comments 80-84. It was really interesting to read through the comments, code them, and think about the comments through that lens. Looking forward to talking on Monday.

Subject: Coding Instructions and Assignments for OR public comments

All--

See attached for updated instructions for how to code OR's public comments. I've assigned most to Jayne, Don and me with Jenny and Chris (since they are on spring break this week, helping out with a few additional comments at the end. Since we'll be relying on Alan as the main tech reviewer for forestry and ag (the BIG ONES), I've given him a pass on coding so he can focus more on reviewing key documents.

I think it would be great if we could shoot for getting all the coding done by **next Friday, April 25th**. I already did most of my batch as an example and it only took me about a day. I know there are some meatier comments towards the end that may take a little more time to sort out but I think targeting next Friday would still be good.

Let me know if you have questions.

Happy coding!

Allison
